Re: Request for confidentiality

Applicant: NovaSom, Inc.

FCC ID: 2ABD4COC

To whom it may concern,

Permanent Confidentiality

Request is hereby submitted by NovaSom, Inc to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- **Schematics**
- **Detailed Block diagrams**
- **Detailed Operational/Functional Description**
- **Parts list**
- **Internal photos**

NOTE : Additional justification:

- (1) Device is not sold to end user.
- (2) Board is encased in medical grade material.
- (3) Non-consumer device inaccessible to general public and is only serviceable by the manufacturer or designated technicians.

Short-term Confidentiality

Request is hereby submitted by NovaSom, Inc. to withhold from public review for a period of 45 days from the date of the Grant of Equipment Authorization and prior to marketing, certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept confidential for a period of 45 days from the date of Authorization:

*[Select one or more of items below that are **not** selected in the list above, as appropriate]*

- User Manual

Rationale for request for confidentiality:

NovaSom, Inc has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us. Disclosure of the short-term confidential portions of this application during the period of importation and/or distribution would reveal key aspects of proprietary technology to competitors and diminish the value of our investment in research and development.]
